PROFILE

Pharmacology graduate (UCL, 2:1) studying for an MSc in Biotechnology and Pharmaceutical Management at UCL, seeking 2027 graduate roles in pharma supply chain and operations, regulatory affairs, or market access. Hands-on experience managing medicine stock as an army medic, an award-winning pharmaceutical demand forecasting concept, and a weekly bilingual industry newsletter.

EDUCATION

University College London (UCL), MSc Biotechnology and Pharmaceutical Management Sep 2026 – Sep 2027

- **Modules:** Healthcare Supply Chain Management; Pharmacoeconomics; Pharmaceutical and Biotech Policies and Practices; Pharma Commercialisation and Marketing

University College London (UCL), BSc Pharmacology, 2:1 Honours Sep 2021 – Jun 2024

- **Dissertation:** "The Journey of Alzheimer's Drugs from Discovery to Delivery: Breakthroughs and Barriers in the Race to the Bedside". Analysed and evaluated Alzheimer's disease therapies and assessed the likely outcomes of the current research pipeline.
- **Modules:** Drug Design and Development; General and Systematic Pharmacology; Pharmacology of Inflammation (Extended)

EXPERIENCE

Medic (Sergeant), Republic of Korea Army, Yanggu, South Korea Nov 2024 – May 2026

- Revised the unit's SOPs for inspecting and managing medicines and medical supplies; adopted unit-wide
- Won an Excellence Award (selected from ~200 finalist teams) at the AI & Big Data Convergence Competition, hosted by the Army Signal School (Ministry of National Defense), with a team of 4 proposing pharmaceutical demand forecasting and inventory optimisation for large healthcare settings; applied pharmacology knowledge to frame medicines as assets needing predictive management
- Handled the unit's administrative work in Microsoft Excel on a daily basis
- Delivered pre-hospital care, including rapid trauma assessment, field triage and MEDEVAC coordination

English Academy Instructor, Daniel Education, Seongnam, South Korea May 2024 – Aug 2024

- Taught English and TOEFL iBT preparation to classes of 8–10 students; designed diagnostic assessments and adapted lesson plans to each learner

Academic Representative, UCL Pharmacology Sep 2021 – Jun 2023

- Elected by the cohort; ran surveys and presented proposals to faculty that led to better-spaced exam and coursework deadlines and improved assessment feedback

Lead Project Manager, Penang Science Cluster, Penang, Malaysia Nov 2021

- Led planning and delivery of the Practical Science Workshop (40,000–60,000 visitors), coordinating logistics, volunteers, vendor timelines and on-site safety
- **Earlier:** Project Manager for a Keysight Technologies-sponsored science workshop programme, running 10+ workshops a week and managing event budgets (2019–2020); Assistant Project Manager, FOBISIA leadership conference (2020)

PROJECTS

BIO:ON Insight, Founder and Editor Jun 2026 – Present

- Write a weekly Korean/English biotech and pharma newsletter: three industry stories per issue (deals, approvals, clinical readouts, policy), each with cited primary sources and its implications for the Korean market
- Built and maintain the companion website, with an issue archive, a company and drug wiki, and free career resources, developed with Claude Code

SKILLS AND CERTIFICATIONS

Languages: Korean (native), English (native/bilingual; TOEFL iBT 112/120)

Certifications: ICH Good Clinical Practice (GCP), freeGCP

IT: Microsoft Excel (strong working proficiency, used daily for administration), Microsoft Office; AI tools (Claude, ChatGPT, Perplexity, Consensus)
